RE: Liquor License Application

Issues

The Aiden McVicker Foundation and the Cameron Chamber of Commerce are sponsoring a fundraiser, Crossroads Crush, October 7, 2017 in the public right of way surrounding McCorkle Park. An ordinance is in place allowing the consumption of alcohol for this event at this location. Black Silo Winery has applied for a Caterer Permits for the event. As always, the City license is only good in conjunction with the proper state liquor control license which they have already provided.

Recommendation

Staff has determined that Black Silo Winery meets all City requirements and recommends approval. Council can review and approve the application with a motion and voice vote.
